

14 CFR Part 71**[Airspace Docket No. 94-ASW-10]****Proposed Alteration of Jet Route J-66****AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Notice of proposed rulemaking.

SUMMARY: This proposed rule would alter Jet Route J-66 from the Dallas-Fort Worth, TX, Very High Frequency Omnidirectional Range/Tactical Air Navigation (VORTAC), via the Bonham, TX, VORTAC, to the Little Rock, AR, VORTAC. Altering J-66 would enhance the flow of air traffic, simplify routings in the northeast vicinity of the Dallas-Fort Worth metroplex area, and reduce controller and pilot workload.

DATES: Comments must be received on or before May 12, 1995.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Air Traffic Division, ASW-500, Docket No. 94-ASW-10, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, TX 76193-0500.

The official docket may be examined in the Rules Docket, Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, DC, weekdays, except Federal holidays, between 8:30 a.m. and 5 p.m.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: William C. Nelson, Airspace and Obstruction Evaluation Branch (ATP-240), Airspace-Rules and Aeronautical Information Division, Air Traffic Rules and Procedures Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone: (202) 267-9295.

SUPPLEMENTARY INFORMATION:**Comments Invited**

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the

FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made:

"Comments to Airspace Docket No. 94-ASW-10." The postcard will be date/time stamped and returned to the commenter. All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA-220, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267-3485.

Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2A, which describes the application procedure.

The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to alter J-66 from the Dallas-Fort Worth, TX, VORTAC, to the Little Rock, AR, VORTAC. This proposed rule would alter that portion of J-66 within the State of Texas from the Dallas-Fort Worth VORTAC, via the Bonham VORTAC, to the Little Rock VORTAC. Additionally, the Glove intersection would be established at the Texarkana 279°T(286°M) and the Bonham 056°T(064°M) radials to assist navigation along J-66. Altering J-66 would enhance the flow of air traffic, simplify routings in the northeast vicinity of the Dallas-Fort Worth metroplex area, and reduce controller and pilot workload. Jet routes are published in paragraph 2004 of FAA Order 7400.9B dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The jet route listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

SUPPLEMENTARY INFORMATION: On May 11, 1994, OSHA announced that it had established the Steel Erection Negotiated Rulemaking Advisory Committee (SENRAAC) (59 FR 24389) in accordance with the Federal Advisory Committee Act (FACA), the Negotiated Rulemaking Act of 1990 (NRA) and section 7(b) of the Occupational Safety and Health Act (OSH Act) to resolve issues associated with the development of a Notice of Proposed Rulemaking on Steel Erection. Appointees to the Committee include representatives from labor, industry, public interests and government agencies.

SENRAAC began negotiations in mid June, 1994, and has met six times since. Initial meetings dealt with procedural matters, including schedules, agendas and the establishment of workgroups. The Committee established workgroups to address issues on Fall Protection, Allocation of Responsibility, Construction Specifications and Scope. During subsequent meetings, foundations for negotiations have been established and preliminary resolutions

of issues are now occurring at the meetings.

All interested parties are invited to attend the Committee meetings at the time and place indicated above. No advanced registration is required. Seating will be available to the public on a first-come, first-served basis. Individuals with disabilities wishing to attend should contact the Facilitator to obtain appropriate accommodations. During the meeting, members of the general public may informally request permission to address the Committee.

Minutes of the meetings and materials prepared for the Committee will be available for public inspection at the OSHA Docket Office, N-2625, 200 Constitution Ave., N.W., Washington, D.C. 20210; telephone (202) 219-7894. Copies of these materials may be obtained by sending a written request to the Facilitator.

The Facilitator, Philip J. Harter, can be reached at Suite 404, 2301 M Street, NW, Washington, D.C. 20037; telephone (202) 887-1033, FAX (202) 887-1036.

BILLING CODE 4510-26-P

DEPARTMENT OF THE INTERIOR**Minerals Management Service****30 CFR Chapter II****Review of Existing Regulations**

AGENCY: Minerals Management Service, Interior.

ACTION: Review of regulations; request for comment.

SUMMARY: In a March 1, 1994, document (59 FR 9718), the Minerals Management Service (MMS) announced its intent to establish periodic reviews of its significant regulations and asked the public to participate in the reviews. The purpose of the reviews is to identify and eliminate regulations that are obsolete, ineffective, or burdensome. In addition, the reviews are meant to identify essential regulations that should be

revised either because they are unclear, inefficient, or interfere with normal market conditions. Comments were received from the March 1 document (the Notice) and acknowledged by MMS in a July 15, 1994, document (59 FR 36108).

The purpose of this document is to: Provide a status update of the MMS action taken on the regulations identified in the March 1 review; and provide the public a second opportunity to identify MMS regulations that should be eliminated or revised. A list of regulations identified for elimination will be sent to the President by June 1, 1995.

DATES: Written comments must be received by April 27, 1995.

ADDRESSES: Mail written comments to Department of the Interior; Minerals Management Service; Mail Stop 4013; 1849 C Street NW.; Washington, DC 20240; Attention: Bettine Montgomery, MMS Regulatory Coordinator, Policy and Management Improvement.

FOR FURTHER INFORMATION CONTACT: Bettine Montgomery, Policy and Management Improvement, telephone (202) 208-3976; Fax (202) 208-4891.

SUPPLEMENTARY INFORMATION: MMS began a review of its regulations in early 1994 pursuant to the directives contained in the President's Executive Order 12866. The Executive Order calls for periodic regulatory reviews to ensure that all significant regulations are efficient and effective, impose the least possible burden upon the public, and are tailored no broader than necessary to meet the agency's objectives and presidential priorities.

MMS invited the public to participate in the regulatory review. The invitation was sent out via different media, namely a notice dated March 1, 1994 (59 FR 9718), MMS and independent publications, and public speeches by MMS officials during that time.

MMS received approximately 40 public comments which were almost equally divided between its Royalty Management and Offshore Minerals Management Programs. MMS acknowledged the comments in a July 15, 1994, notice (59 FR 36108) and set forth its planned actions to address the comments, along with an estimated timetable for the actions.

This notice updates the MMS planned actions and related timetables. This notice also requests additional comments from the public identifying regulations that should be either eliminated or revised.

In recent years, MMS has made an effort to work more closely with its regulated customers and will increase
